

REMARKS

Applicants request favorable consideration and allowance of the subject application in view of the preceding amendments and the following remarks.

To place the application in better form, Applicants submit herewith a substitute specification, which includes a new abstract. For the Examiner's convenience, also provided is a marked-up copy of the original specification showing the portions thereof which are being changed. The substitute specification includes the same changes as are indicated in the marked-up copy. Applicants' undersigned attorney has reviewed the substitute specification and submits that the substitute specification contains no new matter.

Claims 13-25 are presented for consideration in lieu of claims 1-12, which have been canceled without prejudice or disclaimer. Claim 13 is the sole independent claim. Support for these claims can be found in the original application, as filed. Accordingly, no new matter has been added.

Applicants submit that claims 13-25 patentably define features of the nozzle arrangement of the present invention. Accordingly, Applicants submit that the instant application is in condition for allowance. Favorable consideration and an early passage to issue are requested.

Applicants' undersigned attorney may be reached in our Washington, D.C. office by telephone at (202) 530-1010. All correspondence should be directed to our address listed below.

Respectfully submitted,

Attorney for Applicants
